

Welcome to MC-Machine.com

MC Machine is a small job shop located in the Phoenix metropolitan area offering machining services to a wide variety of customers. We specialize in quick turnaround, competitive pricing and personal attention. Whether you or your company are in need of a prototype or would like to subcontract a production run, MC Machine can help. Other services we may provide range from design capabilities to execution of design on vertical machining centers. We also offer services related to Dynamechtronics machines. MC Machine is also known for producing aluminum dash plates to fit 79-89 "Fox" Mustangs and Capris. These plates are designed to accomodate six Auto Meter gauges in the factory dash. Two styles are available, 79-86 Mustang/Capri (may also fit Fairmont/Zephyr) and 87-89 Mustang. Click here for more information regarding our aluminum dash plates.
