

87-89 Mustang Dash Plates

CNC machined in the USA from 1/4" 6061 aluminum plate, our 87-89 Mustang dash plates are designed to hold two 3 3/8" diameter and four 2 1/16" diameter Auto Meter gauges. Indicator lights for turn signals, high beam, brake, check engine and check oil are included.

Some removal of plastic behind the dash plate is necessary. This can not be seen once the plate is installed. A picture in our photo gallery shows where the removal of plastic must be done.

Included with the gauge plates are colored bulbs for the indicator lights as well as installation instructions and tips.

These plates are available in black hard anodize for \$150.00 USD plus \$14.95 shipping inside the continental US.Â

Â Please be sure to read our FAQ for more information. Â

Will this fit my '90-'93 Mustang? Â
